TECHNICAL EXPERIENCE

Accenture | Packaged App Developer   October 2024 - Present || Chicago, IL
A global professional services company that helps businesses, governments, and other organizations improve their performance
- Conducted comprehensive analysis and testing of new components and enhancements to existing IT modules, ensuring optimal performance and functionality.
- Supported the design of communication experiences to reach targeted audiences and market across multiple platforms.
- Leveraged Maximo to efficiently streamline and organize asset management processes for clients, enhancing overall operational efficiency.
- Collaborated closely with the principal developer to identify and resolve bugs, test and validate production code.
- Led and facilitated daily stand-up meetings, while also organizing and coordinating monthly all-hands meetings.
  TECHSTACK: Python, Javascript, Jython, IBM Maximo, Microsoft Azure, SQL, Red Hat OpenShift

Kinetic Footwear, LLC | Full Stack Developer (Freelance) | [Github Demo](#) | [Live](#)   May 2022 - Present || remote
An ecommerce startup that sells a usb/charge-able sneaker with every step
- Developed a responsive static website for showcasing key concept ideas of the shoe, which received positive feedback from users via an interest form.
- Led the design and development of the homepage for a static shoe website, incorporating seamless page transitions and engaging animations using Framer Motion library.
- Implemented recurring updates through the MailChimp platform, we were able to improve user retention by 15% and saw a 20% increase in engagement from users who received the updates.
- Collected and analyzed survey data using form tags by storing data and exported to a Google Sheet for easy collaboration, resulting in a more efficient data analysis process and improved decision making.
- Collaborated with clients to define feature requirements, gather assets, and create mockups/wireframes; Organized weekly design meetings with the Kinetic Footwear leadership to address needs and requirements.
  TECHSTACK: React JS, Framer Motion, React Bootstrap, Google Sheets API, HTML, CSS, Javascript, Netlify

SOFTWARE PROJECTS

Portfolio Website | (Personal Project) | [Github Demo](#) | [Live](#)
I built a personal website portfolio using Next.js and Tailwind CSS and deployed it through Netlify.
- Implemented Tailwind CSS to create a responsive design that adapts to different screen sizes ensuring a seamless user experience across all devices.
- Used Next.js's built-in routing system to create a more organized and intuitive website structure, making it easier for users to navigate and find information easier. I also created a contact form to allow users to easily reach out to me with inquiries.
- Utilized Next.js's static site generation capabilities to pre-render the website pages at build time, resulting in improved search engine optimization and faster initial load times.
- Leveraged the benefits of TypeScript's strong-typing system to improve the reliability and maintainability of the codebase, resulting in a more robust and error-free website.
  TECHSTACK: Next.js, Typescript, Tailwind CSS. Netlify

ADDITIONAL EXPERIENCE

Dental Hygienist | Downtown Dental | Chicago, IL   August 2019 - July 2022
- Provided dental care to 8+ patients a day, perform 160 routine dental cleanings, x-rays and dental examinations per month.
- Improved cavity detection using new dental programs with AI capabilities (e.g. Overjet).
- Maintained patient retention by making calls for reminders and appointment confirmations.
- Enhanced patient care through collaboration with Dentists on procedures within my scope of practice

EDUCATION

Coding Dojo   July 2022 - October 2022
Python, MERN, Java   Online

Midlands Technical College   August 2016 - May 2019
Associates Degree in Dental Hygiene   Columbia, SC
